ROAD AND BRIDGE DEPT.

Roger Lee, bridge foreman updated the Board on the road maintenance being done this week which includes continuing snow removal from the county roads.

Equipment maintenance and repairs were also discussed with regards to keeping up the equipment for the snow removal and other road maintenance. Local rock supply was discussed and the county's need for rock in the near future. The Board is concerned that the rock supply in the area will not meet sufficient needs for Richardson County.

AREA RESIDENTS OF RURAL BARADA

Area residents of the rural Barada area, with Merlin and Shirley Bauman serving as spokespersons, requested to meet with the Board to relay their concerns with the condition of the county roads after the recent snowstorms and blizzards.

They are mainly concerned with getting the snow off the main traveled roads. They stressed the need for bigger and heavier equipment for the road department use, that which could move the amount of snow received this year off the roads. Some stated that now is the ideal time to purchase equipment, loaders, etc. with financing being at such a low rate. It was also suggested that even renting extra equipment at this time would be beneficial in removing the snow off the roads. Another concern was with the conditions of the roads later this season with more moisture predicted and that when grain hauling begins in the next few weeks, the roads will start to deteriorate fast. They are also concerned with the dustless highway, which still have some areas that are one lane making it dangerous to travel and again the group requested that this road be cleared further.

The Board expressed to the group that every attempt has been made, idea has been reviewed and all efforts have been made to clearing the roads so that they are passable for the residents and for emergency services if needed and that the road crews will continue to remove snow from the roads especially on the main roads and those that just have one lane. The Board did relay their concerns with the group regarding the funding for the snow removal and while all efforts are being made to recover the expenses, it is uncertain what amount of FEMA funds will be received to reimburse these costs. The Board also stated to the group that contractors were contacted immediately to assist with the clearing of the roads when it was determined that the last blizzard would become disasterous for the rural residents. The Board has been discussing and researching the purchase of replacing loaders currently being used at the Road Department and agreed that bigger and heavier equipment is definitely needed.

The County still has available \$465,000.00 of the Public Lands and Highway funds awarded to the County for this project which would make a total of \$621,000.00 available funding for the hard surfacing of this road.

Mr. Huppert reported on the Highway Superintendent's workshop he attended last week which included a session presented by Tim Baxter, Loss Control Specialist for NIRMA on rural residential mailboxes and that the counties should have policies in place that only allow for "break away" mailboxes due to recent litigation with a Nebraska county that involved a motor vehicle striking a mailbox which caused a fatality with a child.

Discussion was also held on the request the County has received from a landowner to assist in the improvements of a portion of a road located between S31, T2, R15 and S36, T2, R14. The county agreed to provide a used tube to the landowner but since it can not be determined that this road is a county road the county would not be able to assist with the installation.

Discussion was held on the status of the easement agreement between the Mary Leininger Trust and Mary and Jeff Hanson and James Rieger so that procedures could begin to close the portion of 703 Road in S28, T1, R16. The Board has not received the signed agreement from the landowners.

Preston Road Project Funding

Notice was received from Larry Lewis, engineer for the Preston Road project that the NE Dept. of Roads could not get the project out for bid letting until October of this year but will fund the project at 80% or more of the entire 4 miles.

The funding that is available from the Sac and Fox Nation of \$161,603 made available from the ARRA Tribal monies to put towards the project, must be spent on the project by September 30, 2010, which at that time must also show that a portion of the project was completed using these funds, and because of the stringent guidelines with these funds, the Sac and Fox Nation will most likely have to decline from participation in the project and the monies will have to be returned.

CALL TO ORDER

The regular meeting of the Richardson County Board of Commissioners was called to order by Chairman Sefried at 9:00 a.m. on Tuesday, December 7, 2010. Roll call was answered by Ely, Sickel and Sefried. The Invocation was given by Chairman Sefried and the Pledge of Allegiance was led by Commissioner Ely. Motion seconded by Ely. ROLL CALL VOTE: Ely-aye, Sickel-aye, Sefried-aye. Motion carried.

ROAD AND BRIDGE DEPT.

Scott Huppert, Highway Superintendent, updated the Board on the routine road and bridge maintenance being done this week.

Mr. Huppert submitted a report on the study he made of a road described in Resolution 2010-2011-22 which is also known as the north ½ portion of 636 Avenue running between 719 Road and 720 Road. The study revealed that this portion of roadway cannot be located on the County's road records. After a site visit the area appears to be pasture, no indications of this half mile ever being a road with right-of-way or roadside ditches.

Mr. Huppert also submitted a report on the study he made of a road described in Resolution 2010-2011-28 which is also known as 650 Blvd south of 706 Road, which found that closing this portion of road would at a minimum land lock some property owners. If private easements are made with landowners then vacation of the road could be made. The site visit also verified that the roadside ditches have been filled with yard waste.

Questions have been raised from the public regarding a rumor that the State of NE Dept. of Roads offered to place some hard surfacing on the "Strausville Road" to use as the detour for Hwy 75 but that the County had declined the offer. This is certainly not the case, in fact the County Board submitted a letter to Governor Heineman and Senator Lavon Heidemann requesting assistance from the NE Dept. of Roads for the maintenance of those county roads that would see more traffic with the Highway closed. A response from the State was received that funds were not available for this assistance.

Rhonda Holloway, Executive Director of the Sac & Fox Nation of MO in KS & NE met with the Board to review the status of the hard surfacing project of the Preston North and South Road. Commissioner Sefried stated that Senator Heideman contacted him after last week's meeting with the NE Dept. of Roads officials and is coordinating a meeting with the NE Dept. of Roads officials, the County's engineer, Larry Lewis and the County Highway Superintendents, Scott Huppert and Bruce Filipi to coordinate available funding to complete the project.

SHERIFF BUCKMINSTER

Sheriff Buckminster was unable to meet with the Board.
